

# Pluang

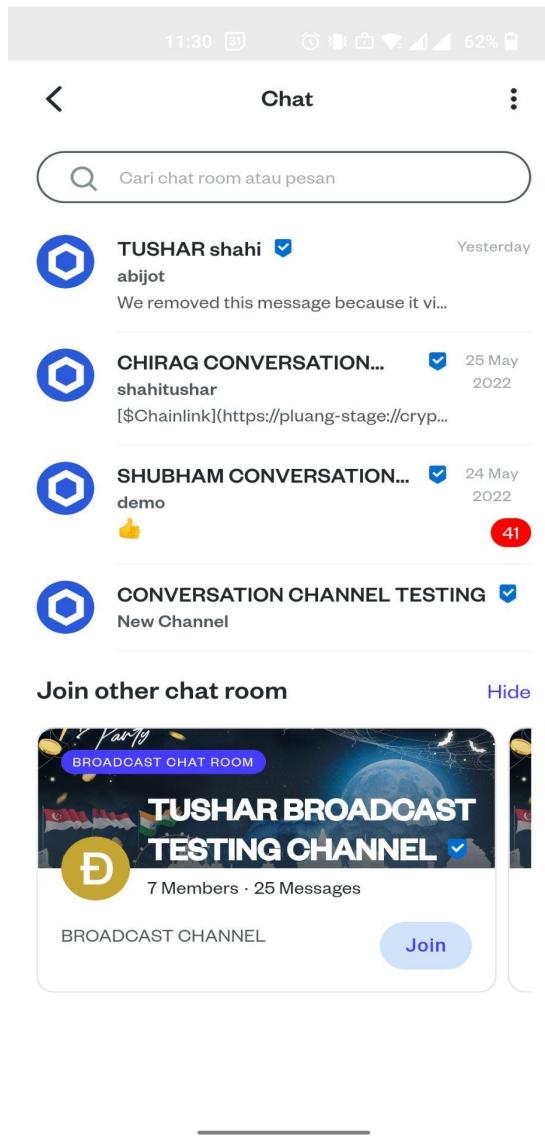

Pluang is a financial app managed and developed by PT Bumi Santosa Cemerlang, with the mission to give more access to various asset classes through micro investment products, easily and safely with affordable cost for the Indonesian society.

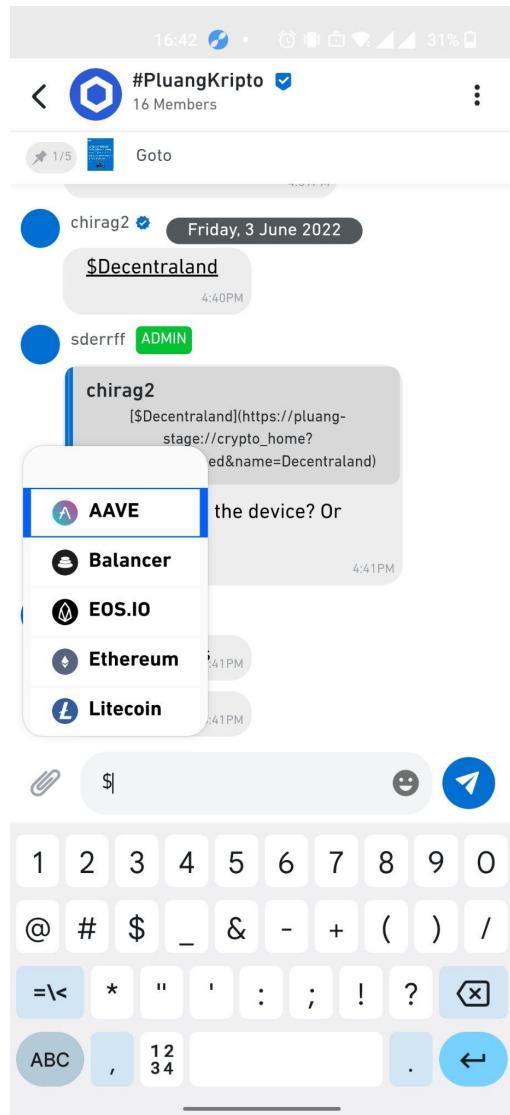

## Features:

Messneger

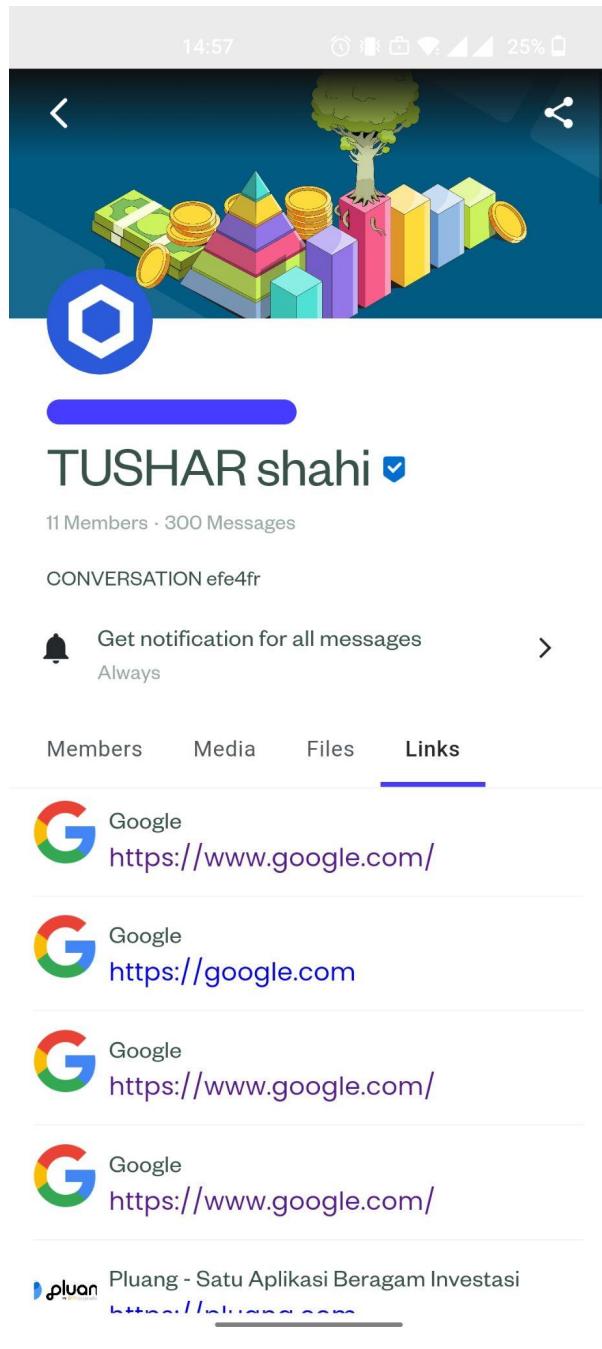

CMS Admin Panel - (No Image available as it's an internal proje)

**Technologies used:** React, Typescript, Tailwind CSS, Material UI,GetStream, Lodash, NextJs, Redux etc.

Customized Input Field to show Ticker

# Evaly

Evaly is a multi-vendor online marketplace that is capable of providing every kind of goods and product from every sector to every consumer located in Bangladesh. Evaly has over 7M registered customers and 600k active customers every week.

## Features:

- Top-up - Cashless service of airtime recharge
- Show history of top-up

**Technologies used:** React, Typescript, Tailwind CSS, React-query, styled-component, ramdajs, Lodash, NextJs, Redux etc.

The screenshot shows the Evaly website's top-up feature. At the top, there are links for 0963811666 and support@evaly.com.bd, and a "Save big on our app!" button. The header includes the Evaly logo, a search bar, and navigation links for Categories, All Shops, Gift Card, Campaigns, Top-up (which is highlighted in red), Cyclone, News Feed, Merchant Zone, and Help. Below the header, the "Top-up" section is displayed. It features a form with fields for Mobile Number (0162XXXXXX), Choose Operator (Robi), Subscription Type (Pre-paid), and Amount (100). A note indicates the amount can range between 10 to 1000 tk. Below the form, a "Most Popular Offers" section displays four options: 1) Special offer for 220 local mins on for 16 hours at 144 tk; 2) Exclusive offer for 22 local mins on for 16 hours at 24 tk; 3) Special offer for 1 Paisa/Sec, any operator, 2 days at 144 tk; 4) Exclusive offer for 60 local mins on for 20 hours at 24 tk. A "view all" link is also present. A "Proceed to Payment" button is at the bottom right. Below this, a "Recharge Offers" section is shown with a grid of 12 smaller offer cards, each detailing talktime, price, and validity period.

# Efood

Efood is the express food delivery service platform of Evaly. It includes restaurant search, add to cart, checkout and place order, order tracking and review, and rating to the restaurant and every hero. It also has story upload and view, explores the user posts, finds top foodies and best restaurants

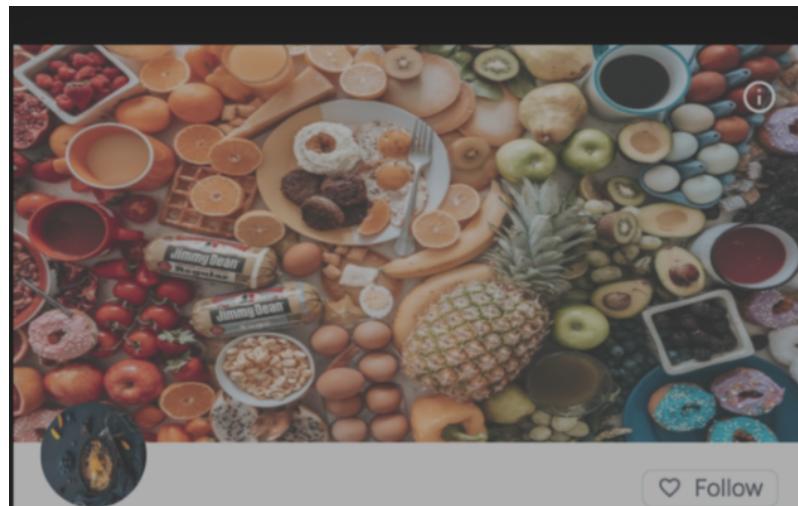

## Features:

- Synchronise Order Cart system
- Polygon system to split cities into multiple small zones for restaurants
- Polygons are customizable and can not overlap each other
- Operational hour can be set for restaurants inside polygon

**Technologies used:** React, Typescript, Tailwind CSS, React-query, styled-component, ramdajs, Lodash, NextJs, Redux etc.

The screenshot shows a web browser displaying the Efood platform. The URL in the address bar is dev.efood.live/restaurant/ABC-Resturent-wizmp. The page header includes the Efood logo, a delivery address (108 Moghbazar Kazi Office Lane, Dhaka 1205), an ongoing order button, and a social network link. On the left, there's a sidebar for 'ABC Restaurant' which is Peruvian, offering 55% off Ramen, with options for Home Delivery, Dine in, Take Away, and Schedule Order. It shows a 0.0 rating and 0 reviews. The main content area displays the 'Your cart' section with a message to start adding items. The cart contains four items: 'Chop Suey' (90 BDT), 'Udon Kacchi' (225 BDT), 'Pasta' (135 BDT), and 'abc special' (13.5 BDT). At the bottom right of the cart area, there's a red 'CHECK OUT' button.

# TiGrow

Project management tool for business Enterprise.

## Features:

- Create Project
- Drag and Drop based task board for each project
- Task details page for details and issues

**Technologies used:** React, Typescript, Tachyons CSS, React Blueprint, styled-component, Lodash, Redux etc.

The screenshot shows the TiGrow application's main dashboard. On the left is a dark sidebar menu with icons and labels: Dashboard (green), Profile (purple), Colleague (green), Settings (green), Project (blue, currently selected), and Associates (orange). At the top right are buttons for 'My Companies' (with a user icon), a bell notification, and a search/filter bar labeled 'Filter By' with a dropdown set to 'All'. The main content area has tabs for 'My Projects' (selected) and 'Pending Projects'. Below is a section titled 'My Projects' showing three cards: 'IT Development' (red border), 'Sales Marketing' (pink border), and 'Marketing' (blue border). A large blue circular button with a white plus sign is at the bottom right. At the very bottom, it says 'Achieved Projects' and 'Project List'.

The screenshot shows the tiGrow application interface. On the left is a dark sidebar with icons for Dashboard, Profile, Colleague, Settings, Project (which is selected), and Associates. The main area has tabs for 'My Projects' (selected) and 'Pending Projects'. A 'Filter By' dropdown is set to 'All'. Below this is a section titled 'My Projects' containing three cards: 'IT Development' (under IT), 'Sales Marketing' (under Sales), and 'Marketing Marketing' (under Marketing). To the right is a 'Create Project' modal. It includes fields for 'Project Name\*' (with placeholder 'Search...'), 'Concerned Admin' (with placeholder 'Search...'), 'Select Departments' (with placeholder 'Search...'), 'ProjectType' (a dropdown menu with 'Please select a value'), and 'Label' (a color palette with six options: red, green, pink, orange, blue, and purple, plus a 'tiGrow' icon).

### Create Project

The screenshot shows the tiGrow application interface. The sidebar on the left is identical to the previous screenshot, with 'Project' selected. The main area is titled 'Board' and shows a card for a board named 'meeting' under the 'IT' category. The card displays 'Total Members 2'. To the right is a large blue circular button with a white plus sign, and below it is the 'tiG' logo.

### Board list of Project

The screenshot shows a task board titled "ABD" under the "meeting" category. The board has three columns: "To Do", "In Process", and "Done". Each column has a blue "Add Task" button at the top. In the "Done" column, there is a card titled "Schedule a Meeting" with a due date of "Apr 23rd 2020" and a status of "Done" with "11 days remaining". A "Send" button is located in the bottom right corner of the card. The sidebar on the left contains links for Dashboard, Profile, Colleague, Settings, Project, Preface, Room, Board, Team, Settings, and Associates. The footer features the "tiGrow" logo.

Drag and Drop based task board

The screenshot shows the "Schedule a Meeting" task details page. The title is "Schedule a Meeting" and it was created by erfanal hoque on April 11th 2020, 2:01:45 pm. The status is "Done" with "11 days remaining". The "Activity" section includes fields for "Due Date" (Apr 23rd 2020) and "Priority" (Highest). There is also a "Members" field. The "SubTask" section contains a text input field and a "Add SubTask" button. A "Write comment" input field is at the bottom. The sidebar on the left is identical to the previous screenshot, and the footer features the "tiGrow" logo.

Task Details Page
