SUMMARY

Senior Software Engineer with 6+ years of experience building user-facing web applications and partner platforms. Strong background in React, TypeScript, frontend architecture, and high-performance UI development at scale. Experienced in collaborating on backend services and APIs supporting frontend systems.

EXPERIENCE

- **Agoda** Sep 2025 - Present
Senior Software Engineer (Frontend / Full-Stack)
 - Developed user-facing **React** and **TypeScript** applications, covered by **Playwright** E2E tests, for a white-label partner integration platform (**RocketMiles, Citi Bank**).
 - Developed scalable backend services using **Node.js** and **.NET/C#** powering frontend functionality.
 - Migrated frontend build from Webpack to Rspack, achieving **3.5x** faster builds (**70s → 20s**) and **35%** smaller bundles with sub-second hot reloads via a dual-bundler CI/CD pipeline enabling safe rollback.
- **Axi Trading** Feb 2024 - Aug 2025
Software Development Engineer II
 - Led the development of the onboarding flow for the Axi Trade site using React, TypeScript, and Tailwind CSS, achieving a **20%** faster load time and ensuring a seamless, responsive user experience across devices.
 - Implemented **BFF pattern** using Auth0 for authentication and authorization, enhancing security and efficiency by providing a dedicated backend that handles client-specific logic and API orchestration.
- **Innovations Group** Oct 2022 - Jan 2024
Software Engineer
 - Developed and maintained an Instant Messenger app for Windows and macOS, achieving a milestone of **100K+** daily logins using **WebSocket, React, Redux Toolkit, Electron.js**, and **SQLite**.
- **Pluang** Nov 2021 - Oct 2022
Senior Software Engineer
 - Built a chat site and mobile app using GetStream API, React and implemented spam prevention features that led to a **10%** increase in daily active users, higher retention, and reduced spam reports.
- **Evaly** Jun 2020 - Oct 2021
Software Engineer
 - Led integration of multiple rider services, resulting in a **30%** revenue increase.
- **TiGrow** Aug 2019 - Feb 2020
Junior Software Engineer
 - Developed a productivity tool, including task management, project timelines, file sharing, and team communication tools, enhancing work organization and collaboration.
- **Circle Fintech** March 2019 - Jul 2019
Software Engineer Intern - Full-time
 - Developed a local payment gateway system for a commercial bank using React, Redux, and React Router.
